## Bees Are Killed In Lee Co. While Fogging "Skeeters"

FORT MEYERS, FLA.—Mosquito fogging by aircraft over Sanibel and Pine Islands near here have caused consternation among the island's beekeepers.

The question has been whether fogging operations are killing off bee colonies on the two off-shore resort islands, as some beekeepers believe.

To solve the problem once and for all, experts from the Florida Agricultural Experiment Stations at Gainesville were called in by both beekeepers and the Lee County Mosquito Control District doing the fogging.

Heavy bee kills were reported in July 1966. Beekeepers felt it was due to aerial fogging operations by the county's mosquito control unit. Neither side knew the answer, but both wanted a solution.

"We didn't get any real heavy kills this year," says Frank A. Robinson, a Stations apiculturist. "But there's no question the materials being used in the fog can destroy bees caught in flight."

Malathion is commonly used on the two islands and throughout much of the state, he said. However, Lee County's program has also been using other chemicals because the mosquitoes have become partly resistant to the sprays containing Malathion.

So far, the only problem was caused by aircraft spraying. No reports have been received of bee kills when regular ground spraying equipment was used.

"The only bees killed during three separate checks in May, June and July of this year were those that happened to be flying at the same time the spraying was being done," Robinson pointed out. "Bees in the hives were not effected."

During tests, bee colonies with screen sides were exposed to the spraying operations without any ill effects. Other colonies were covered with ordinary cheesecloth and again none of the bees were killed.

"Unless the bees fly in the fog cloud, they apparently do not get a lethal dose of the chemical," said Robinson.

Fogging over the two islands is usually done at daybreak and this is also the time when bee flights are the lightest. The problem comes when spraying operations are delayed or late in finishing up. The colonies in areas treated last are the ones generally hit the hardest.

The most populated parts of the island are the only areas being actually fogged by Lee County. The affected colonies could be moved a mile or so from the fogging area and still be in just as good honey-producing spot as before," Robinson said.

The bees use nearby mangroves as a source of pollen and honey.

### HOME FROM VACATION

## Fish In Home County, Cane Pole, Need No License

A cane pole can save a fresh water fisherman \$3.00—that is if he is fishing in his home county—the county in which he lives.

If he crosses the county line to find a "better hole" he might as well have a spinning rod—says the Game and Fresh Water Fish Commission—because he then needs the standard \$3 license.

In a reminder to Florida's fresh water fishermen the commission said the need for a fishing license depends on three things—where you fish—how you fish—and your age.

If you fish in your home county using anything but a cane pole—you need a license.

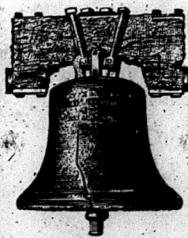

If you leave your county of residence, or fish in a fish management area anywhere—you need a license.

If you are under the age of 15, or a resident over 65, regardless of where or how you fish—you do not need a license.

The standard \$3 license is issued annually. Also sold is a combination hunting and fishing license for \$10.50.

Some of the apiaries, many of which have been on the islands for more than 30 years, should be moved anyway, Robinson thinks because of the amount of residential and motel construction that is going on.

## Fee Increase First In 34 Yrs. P. B. Jr. College

The first basic fee increase in the 34-year history of Palm Beach Junior College will become effective this fall, according to Dr. Harold G. Manor, president.

Instead of paying \$35 per term, the full-time student will pay \$90. Both figures include a student activity fee which was set at \$15 in 1933, and remains the same.

Students from Florida counties which do not support a junior college must add \$37.50 to their fees, instead of \$25, and out of state students must add \$150 per term, instead of \$100.

Part-time fees have been raised by 50 per cent. A student taking a three-hour course at night, for instance, will now pay \$22.50 instead of \$15.

Most special fees for classes, with unusual expenses remain unchanged.

"Fees were consolidated in the fall of 1962," Dr. Manor said, "but this is the first time in the history of the college we have been forced to increase our basic fees."

In announcing the fee changes, Dr. Manor said any increase in fees is "regrettable," but added that a cutback in the quality of education offered by the college "would harm our students even more than a fee increase."

## Junk Cars Will Be Removed If You Call 996-6848

Effective on Monday, the County opened three free car disposal dumps in the Glades area. These sites are: Lake Harbor Park, Lake Harbor; Belle Glade City Dump and Pahokee City Dump.

In order to get the full cooperation of all citizens in this area, the County is allowing all junk cars to be deposited in these sites free of charge.

Anyone desiring to have a car removed from his private property may telephone Municipal Salvage Corporation, Belle Glade, 996-6848, and a wrecker will pick up the car at no expense to the landowner.

These cars will be processed by the Municipal Salvage Corporation and trucked to Tampa, where they will be shredded and forwarded to a Tampa steel mill.

## Have You Made Your Will? May be You Should!

GAINESVILLE, FLA.—Have you thought of making out a will lately? If you haven't, now is a good time to start.

Possibly one of the most unique bulletins ever published by the Florida Agricultural Experiment Stations handles just this topic—Making a Will in Florida for Agricultural and Other Interests.

And it's free for the asking. Single copies of Bulletin 711, "Making a Will in Florida," are available from county offices of the Florida Agricultural Experiment Service, or by written request to the Bulletin Room, Florida Agricultural Experiment Stations, Rolf's Hall, University of Florida.

Author J. R. Greenman, who is an agricultural economist with the Stations, and also an attorney and member of the Florida Bar, says that frequently when estates are small or owned jointly by the husband and wife, the preparing of a will is questioned.

"But even under these circumstances it's usually best to have one made," he said.

The bulletin outlines general principles of law applicable to the kind of estate usually owned by the average person.

Subjects discussed in the Stations publication include advantages of a will, property that cannot be willed, what happens when you die without a will, information your attorney needs in drawing up a will, the providing of equitable treatment of heirs, procedures for changing a will and ways of cutting down on estate taxes which ultimately have to be paid.

There is a new plan for Americans who want to help their country as they help themselves. Now, when you buy U.S. Savings Bonds through Payroll Savings where you work or the Bond-a-Month Plan where you bank, you are also entitled to purchase the new higher-paying Freedom Shares. They are available on a one-for-one basis with Savings Bonds in four denominations and are redeemable after one year. Sign up soon.

### Questions and answers about Freedom Shares.

Q. What are Freedom Shares?

A. They are the new U.S. Savings Notes—a companion product to the Series E Savings Bond.

Q. Who may buy Freedom Shares?

A. Any individual who purchases Series E Bonds regularly through a formal plan—either Payroll Savings where he works or Bond-a-Month where he banks.

Q. What is the interest rate on Freedom Shares?

A. 4.74% compounded semiannually, when held to maturity of 4 1/2 years. The rate is less if redeemed prior to maturity; and they may not be redeemed for at least one year.

Q. Does this same rate now apply to E Bonds?

A. No. E Bonds continue to return an average of 4.15% when held to their seven-year maturity.

Q. What do Freedom Shares cost?

A. They are issued in face amounts of \$25, \$50, \$75, and \$100. Purchase prices are \$20.25, \$40.50, \$60.75, and \$81.00.

Q. Can Freedom Shares be bought by themselves?

A. No. They must be bought in conjunction with E Bonds of the same or larger face amounts. For example, a \$25 Freedom Share may be bought with a \$25 E Bond, when on a regular plan. The total price would be \$39 (\$20.25 for the Freedom Share and \$18.75 for the Bond).

Q. Can I buy as many Freedom Shares as I want, as long as I buy E Bonds of the same or larger amounts?

A. No. On Payroll Savings, Freedom Share deductions are limited to \$20.25 per weekly pay period, \$40.50 per bi-weekly or semi-monthly pay period, \$81.00 per monthly pay period. On Bond-a-Month, the limit on Freedom Share deductions is \$81.00 per month.

# Buy Bonds where you work.

It's miserable work, crawling through a rice paddy. And being shot at. This American does the job for freedom's sake. So do thousands of his buddies. Many of these brave men also support freedom with their dollars. A majority of our servicemen overseas are investing in U.S.

Savings Bonds. Would you like to show this man you're with him? One good way is to buy Savings Bonds where you bank or join the Payroll Savings Plan where you work. You'll make a good investment. And you'll walk a bit taller.

*Bond facts: Savings Bonds pay you back \$4 for every \$3 at maturity in only seven years . . . are replaced free if lost, destroyed or stolen . . . have special tax advantages . . . can be redeemed whenever the need arises.*

## Number Of Checks Issued By State Show Big Increase

Tallahassee—Fred O. (Bud) Dickinson, Jr., Comptroller of Florida, today said that his office processed more than 4.5 million state warrants (checks) while disbursing some \$2.3 billion during the 1966-67 fiscal year.

"The 4,659,314 warrants issued represent a workload increase of more than 73 per cent over a ten year span. This, in turn, is certainly indicative of the tremendous additional effort which Florida's government and its employees are exerting to stay abreast of the ever-mounting needs of our burgeoning population," said Dickinson.

In the 1956-57 fiscal year the Comptroller's Office issued 2,690,777 warrants for \$963,396,862. In the 1966-67 fiscal year, nearly 2 million more warrants were issued for an amount totaling \$2,344,578,278, Dickinson said.

Comparing the 1966-67 fiscal year tabulations with the previous year's, Dickinson pointed out that 1,731,343 welfare warrants were issued for a one year increase of 6.9 per cent in the number of warrants processed; unemployment compensation, 640,016 for a 2.3 per cent decrease; salary, 1,024,472 for a 7.6 per cent increase; expense, 1,063,374 for a 13.7 per cent increase; retirement and refund 200,109 for a 19.3 per cent increase.

The total number of warrants processed in 1966-67, showed a

## Health Workers In P. B. County In Big Demand

Palm Beach County is one of nine counties listed as having the greatest demand for additional health employees in a State Department of Education statewide survey of health occupations.

The number of health service employees in Florida will need to be increased by more than 47 per cent to meet the needs for present vacancies, replacements and filling new positions during the next 12 months, according to the report.

Of the 22 occupations surveyed, hospital personnel needed most are Registered Nurses, Nurses Aides, Licensed Practical Nurses, Hospital Ward Clerks and Certified Laboratory Assistants.

Jack Monahan, executive director of the Florida Hospital Association, Orlando, said 5,000 Registered Nurses are needed during the next year. The hospital association is developing a career recruiting program scheduled to get underway this fall.

Dade County has the greatest need for health employees, followed by Broward, Palm Beach, Orange, Pinellas, Escambia, Hillsborough, Sarasota and Duval Counties.

gain of 7.6 per cent over the number issued during the 1965-66 fiscal year.

## Star-spangled way to sweeten up your future

The old American proverb says, "money isn't everything, but it sure helps."

And that goes double for the money you put in U.S. Savings Bonds. Because this money helps two ways.

First, it helps your future. Putting youngsters through college. Building homes and summer cottages. Buying cruises for you and the spouse. You dream it, Bonds can deliver it.

Second, it helps your country now, by making Uncle Sam a stronger influence in an unsettled world.

Your fellow Americans have tucked over 50 billion dollars into U.S. Savings

Bonds. Why not join them? There's no safer investment anywhere in the world.

### Quick facts about Series E Savings Bonds

- You get 3½% more money when they mature (7 years)
- You pay no state or local tax and can defer the federal tax until the Bonds are cashed
- You can get your money when you need it
- Your Bonds are replaced free if lost, destroyed or stolen

# NEW FREEDOM SHARES

## What are they? Who may buy them?

Americans have put their savings to work for freedom through U.S. Savings Bonds for many years. New Freedom Shares do the same job . . . plus. Read how.

Freedom Shares are U.S. Savings Notes. They pay a higher return than Savings Bonds, 4.74% when held to maturity. And they mature in just four-and-a-half years.

### For regular Bond buyers only

These new Freedom Shares—which are not redeemable for the first year—are offered on a one-for-one basis with E Bonds, but only to people who belong to the Payroll Savings Plan where they work or the Bond-a-Month Plan where they bank.

There are four denominations of Freedom Shares, each of which may be paired with a Series E Bond of the same or larger denomination, as a "package." For instance, for

\$39 total, you can purchase a Savings Bond that matures at \$25 and a Freedom Share that matures at \$25.

### America needs your help

When you buy Savings Bonds and Freedom Shares you do an important job for freedom, backing our men in Vietnam and helping to keep the country economically strong. The need is urgent. What *you* do counts.

### Sign up

Tell your supervisor or the Payroll Department where you work (or any officer where you bank) that you'd like to join a Bond purchase plan. Decide how much you'll save . . . whether you want Freedom Shares as well as Bonds . . . and just sign the authorization card.

You'll be helping your country as you help yourself; the country needs your help.
